Cyprus Sustainable Tourism Initiative (CSTI)

We are an independent, non-profit organisation established in 2006 to promote sustainable tourism development in Cyprus. Our aim is to protect the environment, conserve natural resources and improve the social and economic conditions of marginalized rural communities in Cyprus.

By protecting Cyprus' beautiful environment and helping rural communities to benefit from tourism, Cyprus can offer a memorable experience for tourists for many years to come.

CSTI is affiliated with the Travel Foundation (TF), a UK charity that supports sustainable tourism projects in destinations and helps tourism business to become more sustainable.

We also work with UK tour operators, local environmental NGOs, the Cyprus Tourism Organization (CTO), local Travel Agents, small village producers, communities and associations.

In June 2010 The Travel Foundation, CSTI and CTO entered into a partnership agreement to establish a five year plan of initiatives to support Cyprus in becoming a leader in sustainable tourism.
